COMMERCIAL POOLS

Fluidra's commercial pools include all those aquatic pool solutions designed for the enjoyment and relaxation of the user in both public and private spaces.

Fluidra designs and offers a wide variety of commercial swimming pools with an exclusive and pleasant design. An ideal solution for the realization of economic performance spaces for hotels, apartments and resorts.

ROOF TOP POOLS
Strong and lightweight panel technology.

INFINITY POOLS
Perfectly integrated and adapted to different spaces.

LEISURE POOLS
For different applications in hotels and resorts.

ABOVE GROUND POOLS
Plug & Play solution easy to install and ideal for terraces and hotel suites.

GLASS POOLS
Glass or acrylic material pool with fine finishes, a great market trend.

STAINLESS STEEL POOLS
Elegant solution that produces the sensation of swimming in a mirror.

ROOF TOP POOLS

Staying at a hotel with a pool is a luxury in itself, but those with rooftop pools take things to whole new level. With its lightweight and resistant panel technology, these pools offer spectacular views and a unique and exclusive atmosphere.

ROOF TOP POOL BENEFITS

- New functional area or space for hotel users.
- Operating space and economic efficiency for the hotel.
- Space to come together or swim quietly and enjoy the views.
- Set up a luxurious and exclusive terrace, a differentiation point.
- Attracts citizens and tourists to the terrace for a drink.

INFINITY POOLS

FLUIDRA

The sophisticated architectural design and engineering of this pool produce a visual effect where the water blends with the horizon and extends into infinity.

INFINITY POOL BENEFITS

- Exclusivity and great attraction for the user.
- Attractive, modern design with a growing trend in the market.
- New space for calm and relaxation for the user.
- Perfectly integrated in different spaces
- Meeting point and customer attraction

LEISURE POOLS

FLUIDRA

The leisure pools are the multifunctional space par excellence for the user. They tend to be reference points or spaces for the leisure of hotel users as they can perform a large number of activities in their space.

LEISURE POOL BENEFITS

- Multifunctional space par excellence for the user and the hotel.
- Allows to perform a large number of activities around it.
- The possibility of economic ratio for the hotel is very high.
- It's part of one of the most important assets of a hotel to attract clients.
- Its design can emphasize the hotel or resort style.

ABOVE GROUND POOLS

FLUIDRA

Above Ground Pools are an easy-to-install Plug & Play solution and ideal for terraces and hotel suites. They have a minimalist and elegant style that make them blend perfectly with the architecture of the hotel.

ABOVE GROUND POOL BENEFITS

- Quick and easy installation
- Relaxation zone and views enjoyment
- Average ticket increase per room and room service.
- Exclusivity and privacy for the user
- Luxury lifestyle

GLASS POOLS

FLUIDRA

Glass Pools are pools with glass or acrylic material walls, an attractive feature that differentiates them as their transparency eliminates any visual impact. These manage to retain water effectively while allowing to see through and illuminate the pool with natural sunlight.

GLASS POOL BENEFITS

- Creates unique and exclusive spaces for the hotel, enhancing leisure areas such as the pool terrace/bar.
- Low maintenance cost
- They can have a more personal or more public use. Indoor or outdoor.
- Safety. Possibility to see through the pool glass
- Great resistance to chemical corrosion and inclement weather

STAINLESS STEEL POOLS

FLUIDRA

Swimming over a mirror surface is an unparalleled experience. This pool has a lightweight, eco-sustainable, stainless steel structure which adapts to every space with exquisite elegance.

STAINLESS STEEL POOL BENEFITS

- Exclusivity and attractive design
- Lightweight pool and easy installation.
- Malleable material that allows great design flexibility and customization.
- Hygienic properties. It requires a low maintenance cost.
- High durability and strength
- Ideal for boutique hotels with leisure activities around the pool: bar, massage tables, etc.

FOUNTAINS

Fluidra's fountains are an ideal ornamental solution for the design of common spaces inside or outside hotels.

Their characteristics (water games, color and sound) make these a great decorative and emotional element that provides visual attraction and tranquility in the different spaces where they are installed.

**VESSEL
FOUNTAINS**
Classic fountain
of great beauty
and architectural
value.

FUN SQUARE
Multifunctional
and interactive
fountain that
enhances leisure
around it.

WATER MIRROR
Fine and elegant
sheet of water
that provides
freshness and an
ornamental touch

**DIGITAL
CURTAINS**
Ideal to give an
ornamental touch
to halls and
receptions.

WATER SHOW
Light and color
show to amaze
the most
demanding
public.

WATERFALL
Greatness and
exclusivity
combined with
the relaxing sound
of water.

VESSEL FOUNTAINS

FLUIDRA

The Vessel Fountain is a classic fountain solution that always works. The movement, color and relaxing sound of the water provide an attractive ornamental touch for common spaces inside or outside the hotel.

VESSEL FOUNTAIN BENEFITS

- Provides an ornamental and architectural touch to any space.
- Transmits peace and calm with the soft sound of water.
- Ideal for both indoor and outdoor ornament or gardens.
- Ideal element to finish defining the architectural style of the hotel.
- Purifies the air and cool the surrounding environment.

FUNSQUARE FOUNTAINS

FLUIDRA

Interactive and multifunctional fountain that is installed underground producing a series of jets at customizable heights that generate fast and dynamic water movements.

FUNSQUARE BENEFITS

- Interactive and multifunctional element for the hotel and its users
- Strengthens leisure and activity around it
- Great attraction for the little ones
- Choreographies of great visual appeal for the hotel
- Refreshing feeling around it.

WATER MIRRORS

FLUIDRA

Fine and elegant water lamina that brings freshness and an ornamental touch in common spaces. The beauty of this fountain lies in the design harmony that confers in spaces such as gardens or interior halls. It creates an environment where time seems to stop.

WATER MIRROR BENEFITS

- Ornamental element that brings elegance and generates the so-called mirror effect.
- Transmits peace and calm
- It can be installed both inside or outside the hotel.
- Easy maintenance

DIGITAL CURTAINS

FLUIDRA

Historically, murals have been a way of representing all kind of elements. Through a combination of water and light, Digital Curtains give a new meaning in an innovative and interactive way. The effect introduces new technologies able to represent shapes instantly by interacting with a tablet device.

DIGITAL CURTAIN BENEFITS

- Ideal element to decorate Business & Conference spaces, increasing the event's average ticket.
- Generates a relaxing and refreshing sensation.
- Possibility of projecting personalized messages and logos.
- Provides beauty to common spaces in hotels.
- Monetization of the image and corporate information for events.

WATERSHOW FOUNTAINS

FLUIDRA

Show of lights and colors to the astonishment of the most demanding public. These types of fountains transmit emotions through their spectacle of water, light, sound, color and fire.

WATERSHOW BENEFITS

- Show of great visual appeal for the hotel user.
- It generates great expectation and attraction around it.
- Wide range of customization.
- It transmits strength and emotions
- Ideal option to explain your story through a unique sensory experience.
- International brand image

WATERFALL FOUNTAINS

FLUIDRA

This ornamental feature produces a continuous waterfall that simulates a natural cascade. As a result, it makes a gentle relaxing sound.

WATERFALL BENEFITS

- Relaxing feeling with the soft sound of water.
- Ornamental and refreshing effect.
- It brings a natural and harmonic environment to the space.
- It acts as a natural humidifier in dry air environments.
- Easy maintenance

LAGOONS & LAKES

A lagoon is a very attractive and innovative solution that works as the backbone of a tourist, residential or commercial project.

Our lagoons allow us to adapt to different geographical locations and climatic conditions such as deserts, mountains or cities, creating oases of fresh and crystalline water anywhere in the world.

LAGOONS
Great aquatic and recreational space for the whole family.

LAKES
Extensive natural body of water with an ornamental and refreshing function.

PONDS
Ornamental natural water pond of different styles.

BIO POOLS
Paradisiacal corner absent of chemicals that emulates nature.

LAGOONS

FLUIDRA

Lagoons with crystalline water that takes you to a paradisiacal, peaceful and relaxing environment. Lagoons provide important added value for resorts, as they emphasize the architecture and beauty of the surrounding area and provides a perfect setting for enjoying all kinds of activities.

LAGOON BENEFITS

- It allows a large number of leisure activities around for the whole family. In addition to relaxing, it allows you to do a wide variety of water sports.
- Fresh or salt water. Adapted to the dimensions and environment of each project and location.
- Avoid typical sea hazards such as ocean currents or jellyfish.
- This solution offers leisure activities both in and out of the water that can be monetized through own exploitation services or through the rental of spaces to third parties.

LAKES

FLUIDRA

Fluidra's lakes are large natural water bodies ideal for locating in hotels or resorts that provide an ornamental and refreshing touch to outdoor leisure areas.

LAKE BENEFITS

- Ornamental and heavenly effect for outdoor areas for hotels and resorts.
- No chemicals needed for maintenance
- Allows to carry out a large number of leisure activities around it, so it stimulates and increases the value of the surrounding businesses.
- They are a great visual and functional attraction for potential users.

PONDS

FLUIDRA

Ponds offer a rich natural experience with a variety of flora and fauna. They are ideal to bring an ornamental touch in gardens or green spaces outside or inside the hotel or resort. They can be equipped with some water features like a small waterfall or a spring source.

POND BENEFITS

- Ornamental effect that brings a natural and organic touch to outdoor spaces.
- No need to use chemicals because water treatment is carried out through plant areas, mechanical filters, phosphates and bacteria.
- Solution with great trend and growth due to the increasing eco-friendly demand.

BIO POOLS

FLUIDRA

Bio Pool is a synonym of eco-friendly and green innovation. Its perfect ecosystem allows the water to stay permanently clean and creates an environment in harmony with its natural surroundings. A little corner of paradise, creating the incomparable feeling of swimming in natural water.

BIO POOL BENEFITS

- It provides an ornamental, natural and harmonic touch in outdoor spaces.
- It allows you to relax and swim in natural waters.
- No need for chemicals or great maintenance.
- Attracts a more eco-friendly wellness tourism.

WELLNESS

Wellness is a state of well-being that is achieved through a healthy balance between physical, mental and emotional comfort.

Fluidra's Wellness solutions are especially focused on working these three universes in order to conceive a unique and exclusive space in which body, mind, soul and emotions connect in a perfect experience.

**FINNISH SAUNA,
STEAM BATH &
SALT SAUNAS**

Elegant Nordic-style, steam or salt saunas.

**ICE CABINS, ICE
FOUNTAINS &
SNOWFALLS**

For different treatments in thermal circuits.

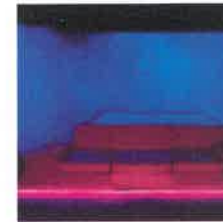

**VITALITY POOL &
EMOTIONAL
SHOWERS**

Pools and showers with elements for relaxation.

TREATMENT ROOM

Wellness space for personal care and image.

MOODIFY

Innovative interactive system of treatments and emotions.

**CHILDREN
WELLNESS**

Recreational and safe wellness space for the little ones.

FINNISH SAUNA

FLUIDRA

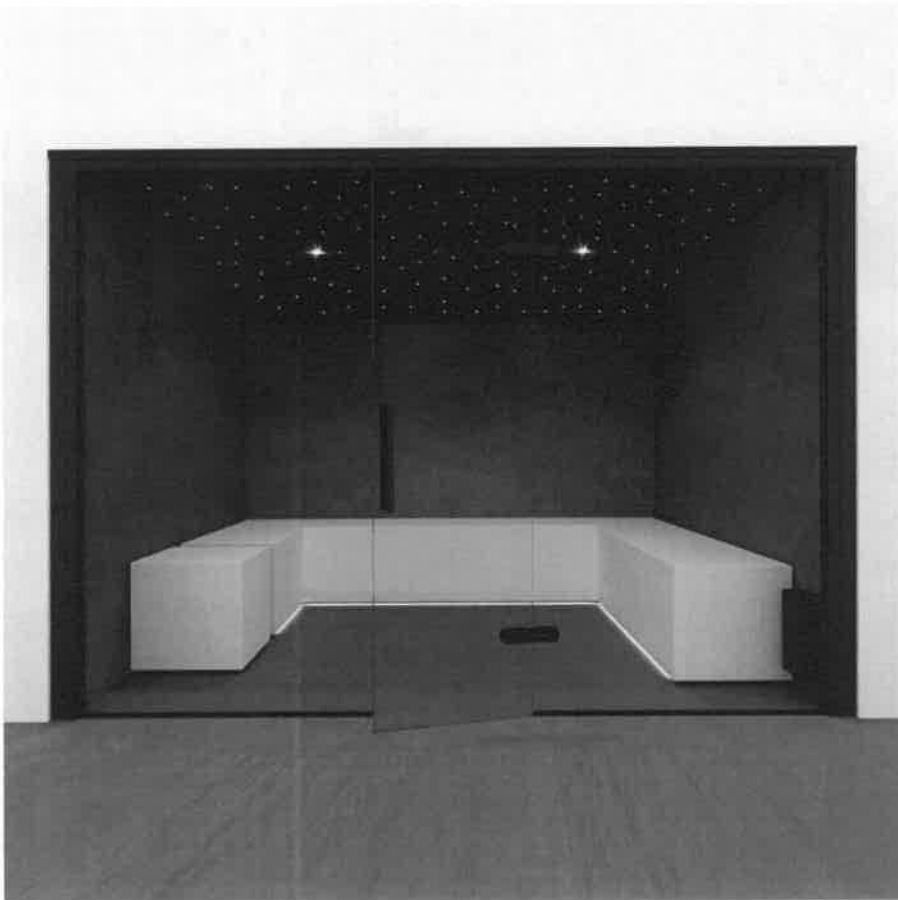

The Astralpool Finnish sauna is made from the highest quality materials, using equipment which incorporates the very latest technology. This is basically a wooden room with insulating material inside, covered with a tongue and groove structure.

FINNISH SAUNA BENEFITS

- Elegant design with Nordic features ideal for wellness spaces.
- Easy maintenance and durability.
- Relaxation and well-being for the hotel user through heat.
- Both public and private use
- Added value that attracts wellness tourism.

STEAM BATH

FLUIDRA

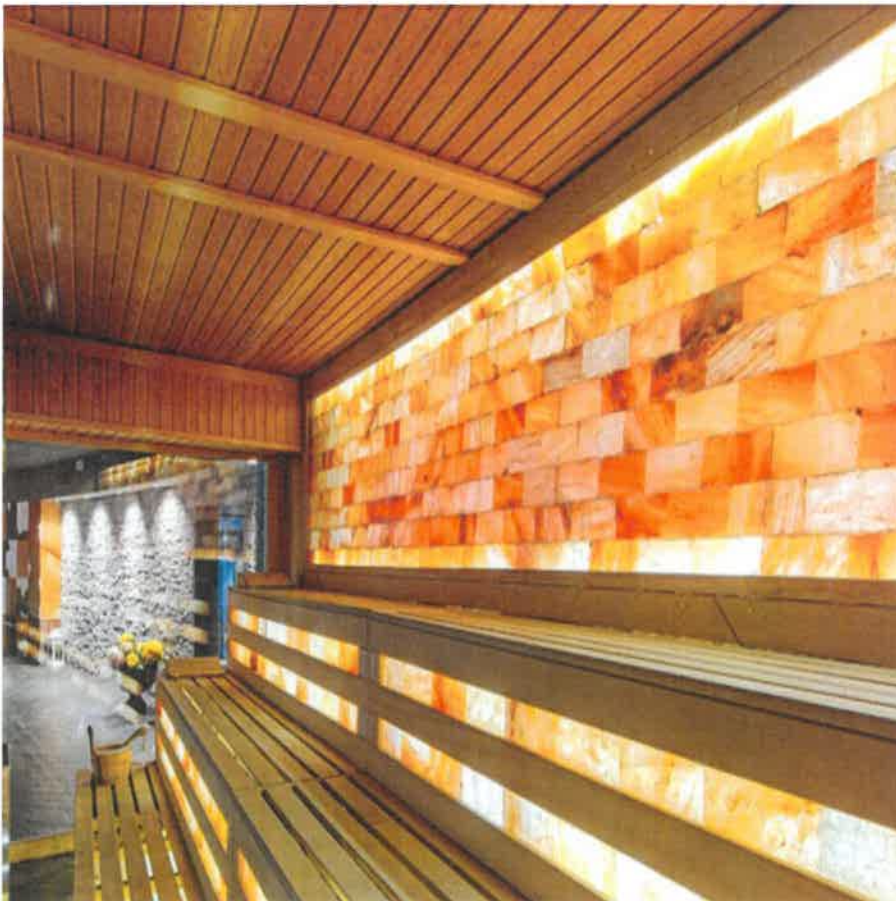

Astralpool steam baths are custom made according to your designs and plans. It is a steam generation room with the purpose of relaxing and cleaning the body.

STEAM BATH BENEFITS

- Prefabricated and customizable.
- Easy installation and maintenance.
- Users well-being through steam and humidity generation.
- Great durability and adaptability to any space
- Therapeutic properties. Promotes circulation, skin care, reduces stress, etc.

SALT SAUNAS

FLUIDRA

Breathe in the salts of the Himalayas in a unique space. AstralPool's salt chambers use halo generators able to produce the right concentration of salt in order to boost health benefits. They reduce stress, problems in the joints, the skin, respiratory disorders and fatigue, amongst others.

SALT SAUNA BENEFITS

- New trend of the wellness market to attract new users.
- Therapeutic properties for the user: breathing, blood circulation, skin-care, etc.
- Easy installation and maintenance.
- It can be for both public or private use

ICE CABINS

FLUIDRA

The drastic change in temperature from warm to cold environments produces a variety of health benefits for the body. Ice Cabins are used to promote this sudden change in temperature. Air conditioning, humidity control, and ventilation are essential to the functionality of the room.

ICE CABIN BENEFITS

- Compact and elegant design
- Great adaptability to any design and space
- Therapeutic properties. Reduces fatigue, promotes blood circulation and muscle recovery.
- It provides a cold variant to wellness spaces predominated by heat elements.

ICE FOUNTAINS

FLUIDRA

An ice fountain is a must-have feature in a thermal facility that rounds off temperature contrast cycles that have many health benefits for the body. By directly applying ice to the skin, body temperature is reduced, skin pores closed and blood circulation improved.

ICE FOUNTAIN BENEFITS

- Long-lasting feature for wellness spaces care in detail.
- Easy to use and install
- In water-cooled equipment water can be reused for other applications such as pools, showers, laundry, etc.
- Minimum power consumption

SNOWFALLS

FLUIDRA

Feel the winter on your skin. Our snowfall is a modern and elegant cold element capable of producing natural snowfalls with the highest quality of snow. Its advanced technology allows use in ambient temperatures up to 45°C and can be combined with a tailor-made cabin for your project.

SNOWFALL BENEFITS

- It brings many benefits to the cardiocirculatory system by cooling the body after a heat bath.
- Unique and exclusive experience of stepping on the snow and feeling it on your skin.

VITALITY POOLS

FLUIDRA

The Vitality Pool is a bespoke luxurious pool, equipped with air and water jet features, and typically operates at a temperature of 38°C. With such a small quantity of water and a large bather load the requirement for a high quality water filtration and treatment system is critical.

VITALITY POOL BENEFITS

- They are highly customizable and contain a large number of wellness and ornamental features.
- Exclusive and pleasant design.
- They can be for a more public or private use. Great space adaptability.
- It is the ideal solution to create a space that merges pool and wellness, leisure and relaxation.

EMOTIONAL SHOWERS

FLUIDRA

The Astralpool emotional showers seek to recreate, through the contact of water with the skin, a journey of sensations in the wildest nature. It is a brilliant and beneficial sensory experience with infinite combinations of jets and lights with an elegant minimalist design.

EMOTIONAL SHOWER BENEFITS

- Great customization capacity, both for the hotel space and for the customer's use.
- Wide variety of jets depending on the desired effect: stimulating, relaxing, refreshing, etc.
- Sound, aroma in water and air, additional external thermostat, reverse circuit and sequence control panel.

TREATMENT ROOM

FLUIDRA

Treatment rooms are an increasingly essential element for a current wellness space. Personal care is an important aspect for the user and progressively more people spend a part of their time relaxing and pampering themselves in the hands of these little corners of calm and serenity.

TREATMENT ROOM BENEFITS

- It is an element in great demand, it tends to be the ultimate “relaxation” space par excellence.
- Usually is an extra and exclusive service, so it increases the average ticket of the hotel user.
- Attracts a type of wellness tourism with an average ticket higher than a common tourist.

CHILDREN WELLNESS

FLUIDRA

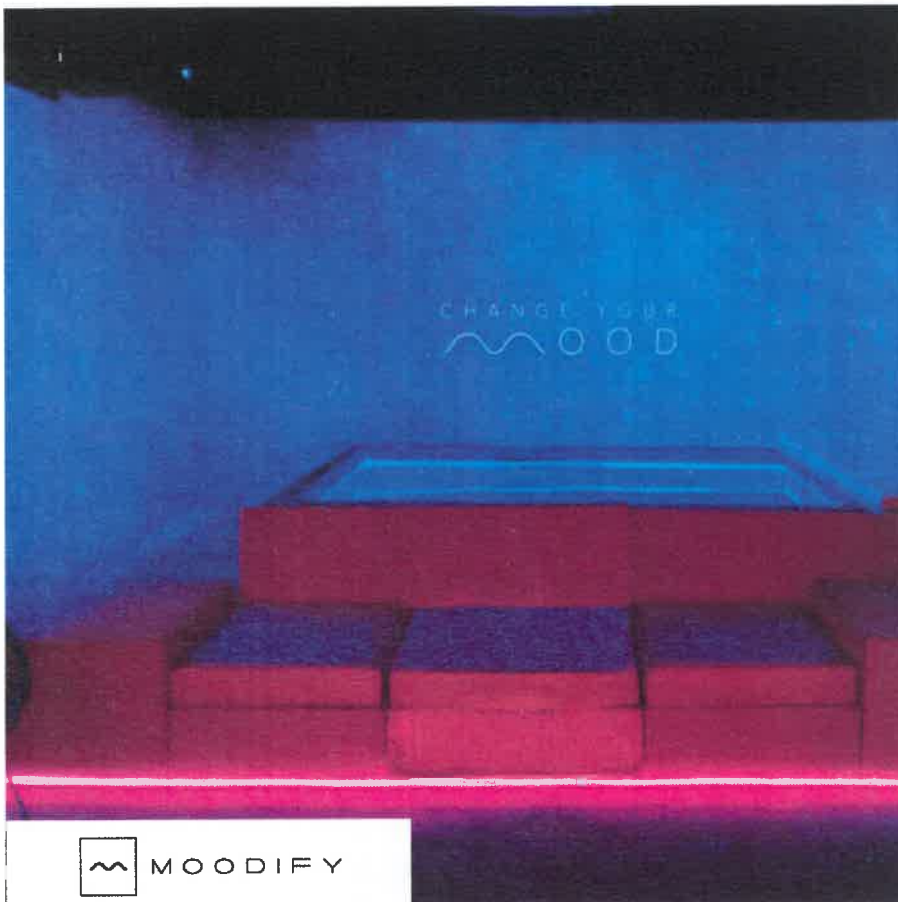

Exclusive wellness for children. This new space is created for the little ones to enjoy an initiation to wellness experience accompanied by a team of monitors. This wellness can have elements such as lagoons, beauty spaces, recreational activities or a relaxation area among others.

CHILDREN WELLNESS BENEFITS

- Ticket increase in treatments for adults due to the service of monitors.
- Children's wellness education and safety play area for children.
- Attracts wellness family tourism
- Differentiation from other hotels.

MOODIFY

FLUIDRA

Moodify is the first emotional manager in the market capable of adapting to the user's needs in order to offer the perfect experience. This disruptive product merges different treatment concepts in just one session without the need for a therapist, only using the latest technology.

MOODIFY BENEFITS

- Attraction of wellness tourism target audience
- Ideal for suites and wellness rooms.
- Differentiation from other competitors.
- High customization possibilities.
- Create your own Moodify experience or download experiences online.
- Great adaptability to any space of the hotel.

POOL BUILDING SKYPOOL SYSTEM

Skypool is Fluidra's patented modular system which makes it possible to build 100% customizable pools adapted to the available space.

QUICKER INSTALLATION

The use of completely prefabricated components along with the easy assembly reduces the time required to build the pool considerably.

WATERTIGHT – NO LEAKS

The perfect fit of the assembled Skypool panels covered by the liner ensures the pool shell is completely watertight. It also withstands land movements and subsidence.

DURABILITY

Maximum quality, functionality and durability of the pool components. The metal structure has a 20-year guarantee.

LOWER MAINTENANCE COST

Easy access to the pool perimeter ensures that problems are located faster, making repairs and maintenance easier and less costly.

SUSTAINABILITY

All components are totally recyclable, non-polluting and manufactured using processes with the lowest possible environmental impact.

LIGHTWEIGHT STRUCTURE

The lightweight structure allows the pool to adapt to any existing infrastructure.

POOL BUILDING PROCESS

SKYPOOL & SHORT PANEL

Fluidra effectively minimizes the construction time frame for commercial pools while providing millimetric accuracy and ensuring maximum safety. This is possible thanks to a skillful execution team and Fluidra's patented Skypool technology.

1
SKYPOOL
PANELS

2

ENHANCED WATER TREATMENT: FREEPOOL

A revolutionary solution for water treatment (filtration and disinfection), ensuring health and comfort at the lowest environmental impact, developed in collaboration with Universitat Autònoma de Barcelona.

BENEFITS

GUESTS:

A comfortable and healthier experience. Guests will enjoy transparent, healthy, clean water while avoiding skin irritations, breathing difficulties and eyes problems.

ENVIRONMENT:

The environment quality will be improved thanks to a reduction of oxidants in the air.

OPERATOR:

The operator will enjoy savings from water and energy reduced consumption with lower maintenance costs.

FACTS

- 

100% ↓
Reduction of chlorinated products and diluted acids used
- 

66% ↓
Reduction of periodical water renewal
- 

20% ↓
Reduction of combined chloramines in the water.
- 

75% ↓
Reduction of oxidants in the air and less smell of chlorine.

EFFICIENCY & SUSTAINABILITY

A sustainable swimming pool is defined as one that has key features to cause less environmental impact by using significantly fewer resources (water and energy) and which is feasible in terms of maintenance and return on investment.

RECIRCULATION SYSTEM

KIVU® pumps deliver top efficiency while running almost silently. The working speed is adapted to the real requirements of the pool, which means an **energy saving of 65%**.

LIGHTING

LED projectors have a lifespan of 100,000 hours, and thus achieve a **saving of more than 90% in electrical consumption** versus conventional and halogen lighting.

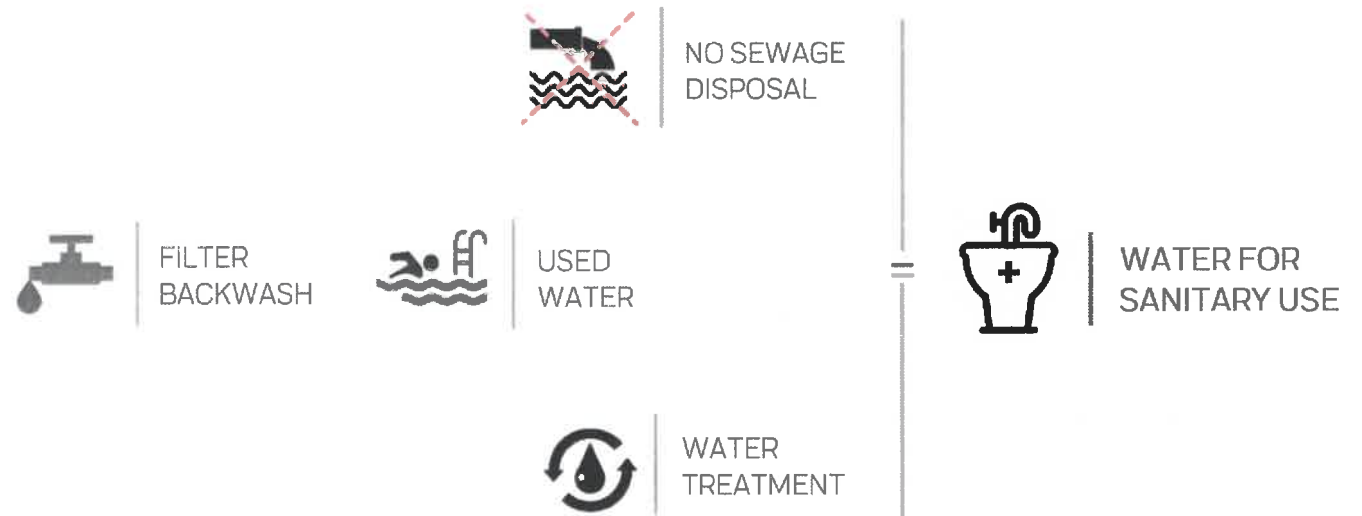

DISINFECTION SYSTEM:

Neolysis® system is environmentally-friendly and reduces the levels of chlorine in the water, **reducing the use of chemical products by 90%**. It reduces the volume and frequency of water renewals and its salt chlorinator produces significant **daily water savings (up to 5% of the pool volume)**.

WATER REUTILIZATION

WATER REUTILIZATION SOLUTION

By means of this solution, the water used to backwash the filters goes through an additional treatment and reutilized for sanitary purposes. The implementation of this system is aligned with the commitment to efficiency and environmental sustainability.

ENVIRONMENTAL SPACES

Materials and finishes are chosen taking into consideration the luxury standards of the hotel and also based on FLUIDRA's experience in design specific requirements for an outdoor or indoor swimming pool facility.

VEGETATION & SHADES

To create a pleasant and natural environment while protecting people from the sun.

WOODEN MATERIALS

In order to create an appealing and natural environment which contrasts with the metal structures and favors relaxation.

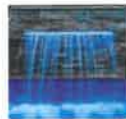

CORIAN USED FOR PLANTERS, STAIRS AND POOL EDGES

This material offers high malleability and even if exposed to high temperatures it remains stable and pleasant to touch.

TEMPERATURE SYSTEM

Our own manufactured cooling and heating systems switch efficiently between heating and cooling cycles.

LEIUSRE ELEMENTS

Cutting Edge Design elements such as cascades or water jets distributed in pools, combining elegance and functionality.

LIGHTING

Sustainable and eco-friendly subaquatic and outdoor lighting for a stunning illumination.

CERAMIC TILES

Used in the design for a safety non-slip floor

FLUIDRA CONNECT

Fluidra Connect enables pools to be controlled at any time and from any place. A smart solution for remotely diagnose, maintenance and control of the pools.

COST SAVINGS

The centralization of the management and control of pools reduces maintenance costs.

PEACE OF MIND & EASY MAINTENANCE

The operator does not have to worry about anything, as the pool settings are always under control.

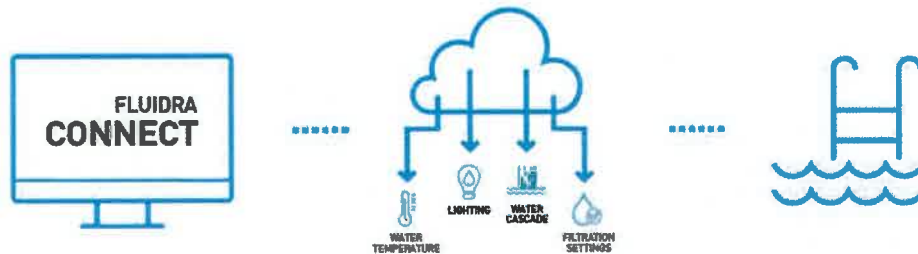

SUSTAINABILITY

Efficient water and energy management

GUEST COMFORT

The pool is always in perfect conditions of disinfection and transparency for guest maximum comfort.
