Company activities, products and services:

(max. 10 lines)

PROMA REHA is a traditional manufacturer of medical and nursing beds. Family company has operated since 1990 and was the first in post-communist countries to produce fully electrically adjustable beds. The owners, Jakubský family, keep moving the company forward. In recent years, it has dynamically grown into a stable, strong and technically and professionally advanced company. Thanks to this, today our products are among the world's best. High quality products, professional services and hard work are behind our success.

The production covers medical beds, especially ICU and CCU beds. The portfolio includes also a bariatric bed, ICU beds, or beds for a standard hospital ward. Shower beds, transport chairs and stretchers are also in the portfolio. Our production processes are focused on high quality and durability.

Our family business exports products worldwide, e.g. to Scandinavia, Middle and Eastern Europe (especially Russia), North Africa and the Middle East.

We are looking for:

(distributors, clients, partners for joint-ventures, co-operation, etc.)
